Instruction Sheet

Subject: K00461 Scoop Holder

EXTERNAL SCOOP HOLDER ACCESSORY

⚠Warning

Authorized Service Representatives are obligated to follow industry standard safety procedures, including, but not limited to, local/national regulations for disconnection / lock out / tag out procedures for all utilities including electric, gas, water and steam.

DANGER

Disconnect electric power to the ice machine at the electric switch box before proceeding. Failure to disconnect the power at the main power supply disconnect could result in serious injury or death. The power switch DOES NOT disconnect all incoming power.

The External Scoop Holder is designed to be mounted on the left or right side of a bin or on a wall. Position may be horizontal or vertical. If vertical, the scoop handle must be facing up.

No tools are required to assemble this accessory if hanging on the bin. For wall mount, hardware to affix the base to the wall are not provided.

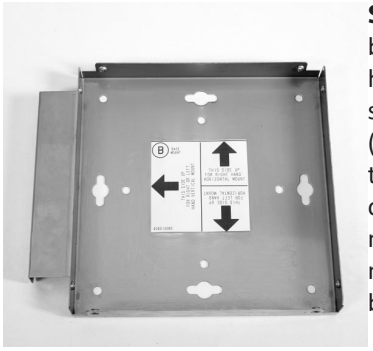

For an assembly video visit manitowocice.com/video or Manitowoc Ice Youtube.

Identifier	Description	Quantity
	Thumbscrews	9 (1 extra)
	Washers	3 (1 extra)
	Edge Guard	1
A	Hangar	1
B	Base	1
C	Mounting Plate	1
D	Plastic Cover	1

Bin Mount

Step 1 Determine the final scoop holder location. Horizontal or vertical on the right side or left side of a bin or wall mounted horizontal or vertical. Once you decide where to locate it, use the label on the Base (B) to determine the correct position of the Hanger (A). The Hanger (A) is not used in the wall mount application. (See Wall mount application).

Step 2 Labels on the base (B) and label on the hanger (A) must be on the same side. Attach Hanger (A) to the Base (B) using two thumb screws. Fasten on the side for horizontal mounts and top for vertical mount . See pictures below.

Attaching the Hanger (A) to the Base (B) for a right side horizontal bin mount.

Attaching the Hanger (A) to the Base (B) for a left side horizontal bin mount.

Attaching the Hanger (A) to the Base (B) for a vertical bin mount.

Step 3 Slide the Hanger (A) attached to the Base (B) underneath the ice machine. If the ice machine is already installed on the bin: 1) raise and support the ice machine. 2) install bracket over the bin wall and lower the machine into position. May require two people.

Hanger (A) attached to the Base (B) on the right side of the bin for a horizontal bin.

Hanger (A) attached to the Base (B) on the left side of the bin for a horizontal bin mount.

Hanger (A) attached to the Base (B) for a vertical bin mount. (can be left side or right, left pictured)

Step 4 Sanitize the Mounting Plate (C) and Plastic Cover (D) before installing using a solution of 1 ounce of Manitowoc sanitizer (part number 9405653) mixed with 1.5 gallons of potable water.

Step 5 Fit the Base (B) inside the mounting plate (C) fastening the end using the **two thumb screws and two washers**.

Mounting plate (C) attached to the Base (B) on the right side of the bin for a horizontal bin mount.

Mounting plate (C) attached to the Base (B) on the left side of the bin for a horizontal bin mount.

Mounting plate (C) attached to the Base (B) for a vertical bin mount (can be left side or right, left is pictured)

Step 6 Slide the plastic cover (D) over the top of the mounting plate C.

Right side of the bin for a horizontal bin mount

Left side of the bin for a horizontal bin mount

Vertical bin mount

Step 7 Fasten the top and bottom of the plastic cover (D) to the mounting plate using the remaining 4 thumb screws.

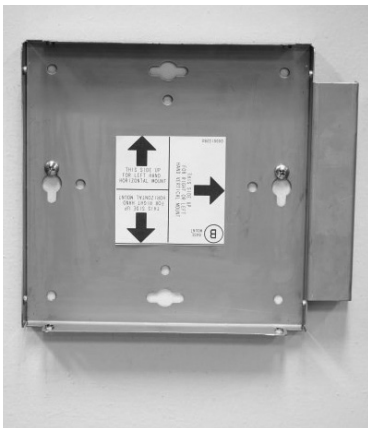

Wall Mount

Step 1 Determine where you want to wall mount the external scoop holder and whether you want the scoop to enter vertically or horizontal entering the scoop from the right or the left. The Hanger (A) is not used in this application.

Step 2 Level and mount the Base Plate (B) to the wall in one of the three ways shown below.

NOTE: Hardware for mounting the Base Plate (B) to the wall is not included in this kit.

Horizontal wall mount for the scoop to enter from the right

Horizontal wall mount for the scoop to enter from the left.

Vertical wall mount for scoop to enter from the top. (CANNOT enter from the bottom)

Step 3 Sanitize the Mounting Plate (C) and Plastic Cover (D) before installing using a solution of 1 ounce of Manitowoc sanitizer (part number 9405653) mixed with 1.5 gallons of potable water.

Step 4 Fit the base (3) inside the mounting plate fastening the end using the two thumb screws.

Mounting plate (C) attached to the Base (B) for a horizontal mount and the scoop entering from the right

Mounting plate (C) attached to the Base (B) for a horizontal mount and the scoop entering from the left.

Mounting plate (C) attached to the Base (B) for a vertical mount . The scoop enters from the top

Step 5 Slide the plastic cover (D) over the top of the mounting plate C (figure 1).

Left side of the bin for a horizontal bin mount

Right side of the bin for a horizontal bin mount

Vertical bin mount

Step 6 Fasten the top and bottom of the plastic cover (D) to the mounting plate using the remaining 4 thumb screws.

Left side of the bin for a horizontal bin mount

Right side of the bin for a horizontal bin mount

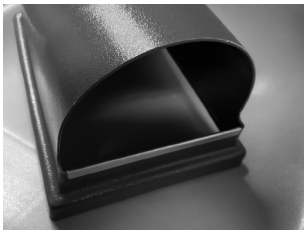

Vertical bin mount

You are now ready to store the 00014199 plastic scoop that comes with the Manitowoc D-Bin. Your new NSF approved external scoop holder will keep the scoop out of the ice bin, and covered for sanitized ice scooping.

NOTE: If you purchased the optional metal scoop Part number 000013960 refer to step 7.

Step 7 Align edge guard along front lip and press in place when using a metal scoop. The edge guard is not required when using a plastic scoop.

For a video on how to attach the External Scoop Holder visit manitowoice.com/videos or the Manitowoc Ice Youtube channel.
