KLB482214	Two Ice Beverage Models on a LB1448 Bin
KLB603048	48” Model on a LB1460 or LB1760 Bin
KLB603030	Two 30” Models on a LB1460 or LB1760 Bin
KLB602222	Two 22” Models on a LB1460 or LB1760 Bin
KLB604800	Quadzilla on a LB1460 or LB1760 Bin
KLB602214	Two Ice Beverage Models on a LB1460 or LB1760 Bin
KLB613048	48” Model on a LBCS1360 Bin
KLB613030	Two 30” Models on a LBCS1360 Bin
KLB614800	Quadzilla on a LBCS1360 Bin
KLB612214	Two Ice Beverage Models on a LBCS1360 Bin

NOTE: Only adapters with the plastic top cover require installing the removable metal support. The stainless steel adapter and support are welded as one piece and will have the gasket applied at the factory

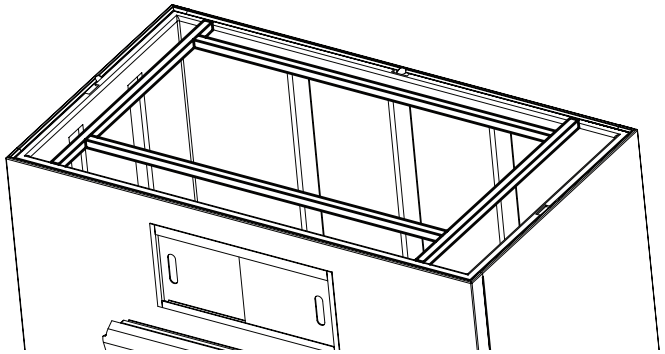

⚠Warning

Authorized Service Representatives are obligated to follow industry standard safety procedures, including, but not limited to, local/national regulations for disconnection / lock out / tag out procedures for all utilities including electric, gas, water and steam.

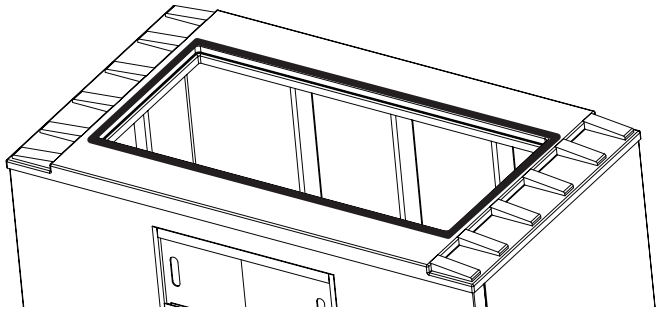

⚠ Warning

Remove all removable panels before lifting and installing ice machines and use appropriate safety equipment during installation and servicing. Two or more people are required to lift or move this equipment to prevent tipping and/or injury.

1. Remove protective coating from any bin adapter components prior to assembly.
2. Place the stainless steel support on the bin if applicable.

3. Set the bin adapter on top of the bin and verify it is properly aligned on all sides.
4. If not already in place, apply foam tape on top of the bin adapter around the edges of the ice machine drop zone opening(s). Foam tape applied to the front of the opening must be located under the ice machine bottom rail.

5. Place bin in final position and adjust legs to level bin in all directions.
6. Place ice machine on bin adapter and follow procedures in the ice machine Installation, Operation and Maintenance manual to complete ice machine installation.
7. Add filler panels to bin adapter as required.
8. Clean and sanitize the ice machine and bin when installation is complete.
