Instruction Sheet

Subject: Compressor Replacement Instructions

COMPRESSOR ASSEMBLY 000008733
CVDF3000/CVD3085/CVD2085 MODELS

DANGER

Disconnect electric power to the ice machine at the electric switch box before proceeding. Failure to disconnect the power at the main power supply disconnect could result in serious injury or death. The power switch DOES NOT disconnect all incoming power

⚠Warning

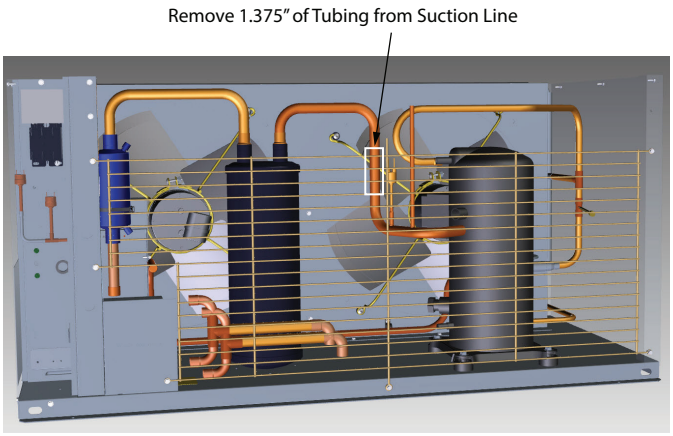

This equipment contains refrigerant charge. Procedures must be performed by a properly trained and certified refrigeration technician aware of the dangers of dealing with refrigerant charged equipment.

⚠Warning

Authorized Service Representatives are obligated to follow industry standard safety procedures, including, but not limited to, local/national regulations for disconnection / lock out / tag out procedures for all utilities including electric, gas, water and steam.

To accomodate the new compressor the suction line must be modified.

1. Remove 1.375” of tubing from the suction line.

2. Braze the included coupling into place and connect the compressor
