Instruction Sheet

Subject: Top Air Discharge Kit

K00554/K00555/K00556/K00557

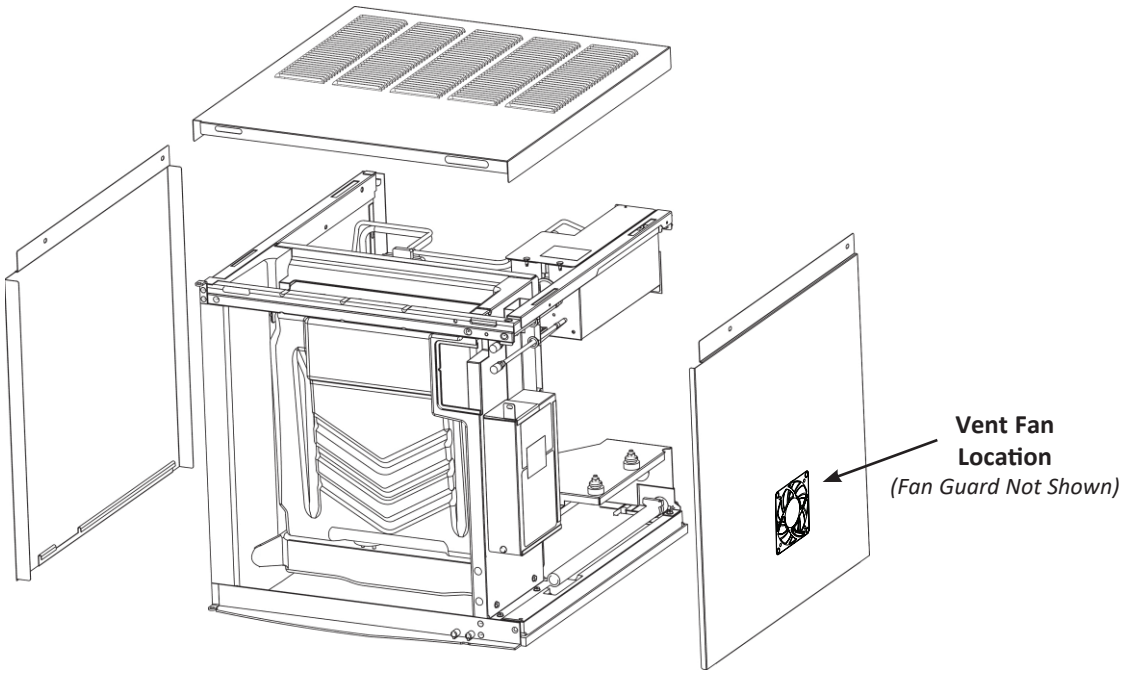

⚠Warning

Authorized Service Representatives are obligated to follow industry standard safety procedures, including, but not limited to, local/national regulations for disconnection / lock out / tag out procedures for all utilities including electric, gas, water and steam.

⚠Warning

Disconnect electrical power to the ice machine (and dispenser when applicable) at the electrical switch box before proceeding.

1. Open front door.
2. Remove top panel.
3. Remove louvered left and right side panels.
4. Only units with vent fan, remove existing vent fan, unplug from control board. Place “silver sticker” where the fan motor was mounted.
5. The new right panel will have the vent fan and vent fan guard preinstalled.
   A. Indigo NXT - Connect wiring harness without clip to the vent fan. Reconnect vent fan on control board at the Bin LED terminal.
   B. Koolaire - Connect wiring harness with clip to the vent fan. Reconnect vent fan on control boar at J9 terminal.
6. Install new right panel & solid left panel secure with screws (2 - per panel).
7. Install louvered top panel.
8. Secure front door.
9. Apply power.
