K021 ADAPTER KIT

Installation Instructions

1. The K021 Adapter Kit is used for installing a G-0800 ice machine on a C-900 bin. The bin must be leveled before proceeding to Step 2.
2. Installation of Adapter (see Illustration):
   A. Remove foam tape from front and right side and trim back rear foam tape, as shown.
   B. Remove existing ice deflector and install deflectors from kit using existing screws. The two deflectors should be installed end-to-end to make one continuous deflector.
   C. Remove top rail screw, as shown.
   D. Locate adapter panel.
   E. Attach adapter panel to top rail using the screw removed in step C.
   F. Using the adapter panel as a template, drill four 5/32" diameter holes in bin, as shown.
   G. Fasten panel in place with screws provided in kit.
   H. Apply foam tape to adapter and front, as shown.
3. Installation of Ice Machine:
   A. Position ice machine on bin.
   B. Proceed to ice machine installation instructions for electrical and water hook-up and start-up procedure.
