ADAPTER RETAINING ARM

Installation Instructions

1. Remove front panel.
2. Remove thumbscrews from lower support of ice machine.
3. Position retaining arm holes over rivnuts and replace thumbscrews. The retaining arm will be in between the adapter and the lower support of the ice machine.
4. Rotate retaining arms into position, as shown for normal ice machine operation.
5. Replace front panel.
6. Add label, as shown.
