Q-1400 ICE MACHINE OR A Q-DUAL ICE MACHINE ON AN S970 BIN USING K00213 ICE DEFLECTOR

Installation Instructions

Q-1400 Instructions

1. Remove splash shield, water pump, and water trough from ice machine.
2. Install ice deflector, as shown, using two #10-32 mounting screws and tapping plate. Center ice deflector directly beneath water trough. Ice deflector must be secured with two mounting screws for proper operation of ice machine.
3. Reassemble water trough, water pump, and splash shield.
