WATER CURTAIN HANGER PIN KIT

Installation Instructions

1. Turn the toggle switch to center (OFF) position.
2. Remove the water curtain.
3. Per the drawing below, drill a 1/16" hole completely through the right-hand water curtain tab. This can be drilled from the top or from the bottom of the tab.
4. Using pliers, bend the pin supplied at a 90° angle approximately 1/8" from the end.
5. Insert the pin into the top of the hole drilled into the tab.
6. Reinstall the water curtain by placing the water curtain pin in the left-hand tab. Slightly flex the curtain and put the other curtain pin into the right-hand tab.
