K00444 ADAPTER KIT

Installation Instructions

The K00444 kit is used for installing 22" ice machines on a Manitowoc “B970 or K970” bin.

1. Installation (bin must be level before starting):
    a. Remove protective coating from entire support, bin adaptor prior to assembly.
    b. Place support, bin adaptor on bin as noted with angled flange forward, center on existing foam tape on top of bin. Note: no fasteners are required.
    c. Apply foam tape supplied with kit around perimeter of support, bin adaptor opening as shown.
    d. Refer to Ice Machine Installation Manual for ice machine installation procedures.
