Instruction Sheet

Subject: Indigo Ice Machine Manual Harvest Feature

If an Indigo ice machine has ice on the evaporator that will not release observe the following:

Do not try to chip the ice off the evaporator

Do not hit the ice sheet or evaporator with any type of object - Severe damage to the ice machine will result.

Do not use anything to pry ice from the evaporator.

Follow this procedure to start a manual harvest cycle.

1. From the Home screen, press the Menu button to enter the Main menu.
2. Use the down arrow and scroll down until Service is highlighted, then press the checkmark.
3. Use the down arrow and scroll down until Manual Harvest is highlighted, then press the checkmark.
4. The ice machine will start a manual harvest - Allow the harvest cycle to run until the ice falls from the evaporator.

If the ice machine starts another freeze cycle before the ice falls from the evaporator, call for service.
