Manitowoc® **Parts & Service Communicator**

Subject: SM050 Evaporator Water Inlet Fitting Kit

A kit (040000691) is available for SM50 Machines to distribute water more evenly around the evaporator cups. This will greatly increase harvest efficiency helping the individual cubes to release from the evaporator. The kit contains the following parts; Water Inlet Fitting 040000607, Water Distribution Tube 040000608, O-Rings (2) 040000637 & Tie Strap 56-5073-3.
