Manitowoc Parts & Service Communicator

Subject: CVD2075 Replacement Compressor

CVD2075 230v/60hz/1ph replacement compressors will include revised components:

- The start capacitor and start relay are replaced by a PTCR
- The low pressure switch is replaced with a higher operating range low pressure switch
- The control box wiring harness is replaced
- A wiring diagram label to show the wiring changes

Instructions for replacement and wiring are included with the replacement compressor
