Manitowoc Parts & Service Communicator

Subject: Indigo I0320 Wiring Diagram

Indigo I0320 ice machines with a serial number from 110967016 to101037984 were manufactured with a wiring diagram that does not show the current relay in the compressor section. The ice machines are wired correctly, only the wiring diagram is incorrect. Wire and relay numbering on the ice machine will not match any of the compressor sections on the wiring diagram. The diagram below is the correct diagram for I0320 ice machines.
