Subject: K00379 Top Air Discharge Kit

K00379 Top Air Discharge Kit was originally designed for S model ice machines. Indigo model ice machines require a longer clearance hole in the top cover to secure the door screw.

The kits that are currently in distributor stock can be handled two ways:

1. Label “For use with S0450, S0500, S0600 Models Only”
2. The kit can be field modified by drilling a clearance hole in the top cover when used on Indigo Models.

All K00379 kits shipped from the factory starting October 2011 will have the additional clearance hole and will be compatible with S or Indigo model ice machines.
