Indigo and Indigo NXT Replacement Water Level Probe

REPLACEMENT WATER LEVEL PROBE AND WIRING HARNESS

A replacement water level probe/harness assembly is available that allows universal water level probe replacement for all Indigo and Indigo NXT models.

- The replacement water level probe and wiring harness are easily identifiable as the electrical connector is oval rather than square.
- The wire harness is included with water level probe 000016053.
- The wire harness will need to be replaced with the water level probe and routed to the control box.

> **⚠ Caution**
>
> Do not cut and splice the connector onto the old/existing wire harness as erratic operation will result.

- Always clean and sanitize the ice machine after handling evaporator components and the water level probe.

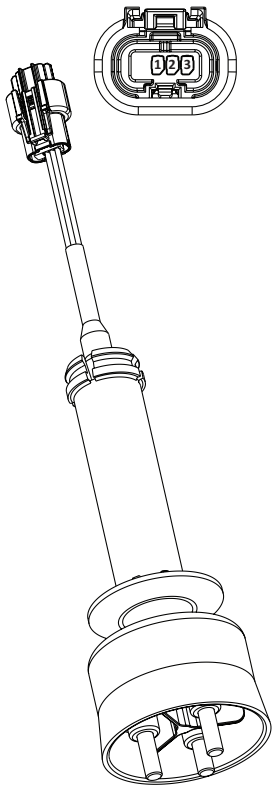

The following parts are no longer available:

000007052 Water Level Probe

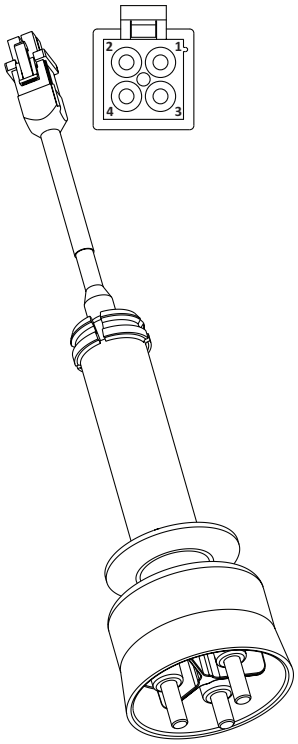

000007724 Water Level Wiring Harness 56 inch

000007099 Water Level Wiring Harness 42 inch

NOTE: No longer available parts in the Electronic Parts Catalog are identified by red text.
