Manitowoc® Parts & Service Communicator

Subject: Metal Safe Ice Machine Cleaner #000000084

Manitowoc is introducing a new metal safe cleaner (#000000084) for the Flake/Chiplet/Nugget & SM Ice Machines. The new metal safe cleaner (#000000084) is a weaker based formula that must be used on Flake/Chiplet/Nugget (bronze evaporator) & SM (tin plated evaporator) machines, it is not approved for use in any other ice machines or with the AuCS accessories.

The Manitowoc's original cleaner (#94-0546-3) cannot be used on the Flake/Chiplet/Nugget or SM machines because repeat / concentrated usage will damage the evaporator. If the wrong cleaner is used and damage occurs the damage is not covered under warranty.

The sanitizer (#94-0565-3) will stay the same for all ice machines. The appropriate cleaner/sanitizers and cleaner/sanitizer amounts are listed in Installation, Use and Care Manuals and on ice machine front panel labels.

New Metal Safe Ice Machine Cleaner 000000084 for Flake/Chiplet/Nugget & SM Ice Machines Only

Original Ice Machine Cleaner 94-0546-3 for All other Ice Machines
